The Endurance difference.

Your Door. Your Style.
Each Endurance door is meticulously crafted to reflect your individual style, allowing you to showcase your personal touch at the entrance of your home. With a diverse selection of over 85 stylish door designs, 19 colors, and an impressive array of glazing and hardware accessories in our range, there's an Endurance door for every type of home and every kind of homeowner.

Built To Last.
Every component of an Endurance door has been carefully considered, with longevity and durability at the heart of everything we do. Each part of our specification has been rigorously tested, from our heat reflective doors skins to our 48mm solid timber core, to ensure that your Endurance door will stand the test of time.

We're Proud Of Where We've Come From.
For more than 30 years, our dedicated team has been crafting robust engineered timber doors from our manufacturing facility in North Lincolnshire. Currently, we have a workforce of over 300 local people, each proud to contribute to the production of the UK's most enduring, stylish, and secure entrance doors.

Moisture barrier system.

Our unique Moisture Barrier System is concealed within the foot of every Endurance door, completely protecting the solid timber core from moisture ingress.

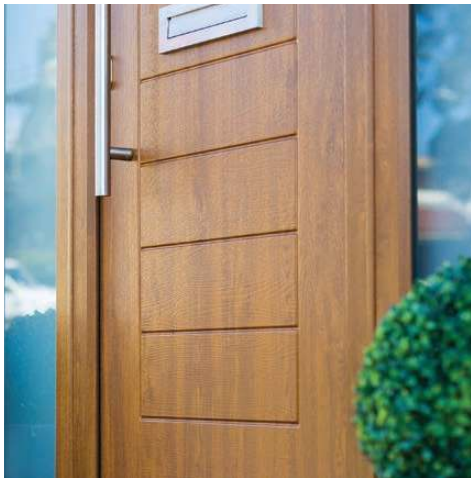

48mm solid timber core.

The Endurance door's heavyweight construction sets it apart, weighing up to 40% more than other composite doors. When you close your Endurance door, the solid clunk assures you that your home is protected by the sturdiest and most secure entrance door on the market.

100% Solid
Unlike other composite doors that may incorporate timber sub-frames or foam, an Endurance door is comprised of 100% solid timber. Count on your Endurance door to maintain its shape, resisting bending and twisting that other composite doors may succumb to.

Keeps Your Home Warm
With its solid core, an Endurance door goes beyond standard features, prolonging the warmth in your home. Engineered with robust construction and premium materials, it effectively retains heat, bolstering energy efficiency and guaranteeing a snug living environment.

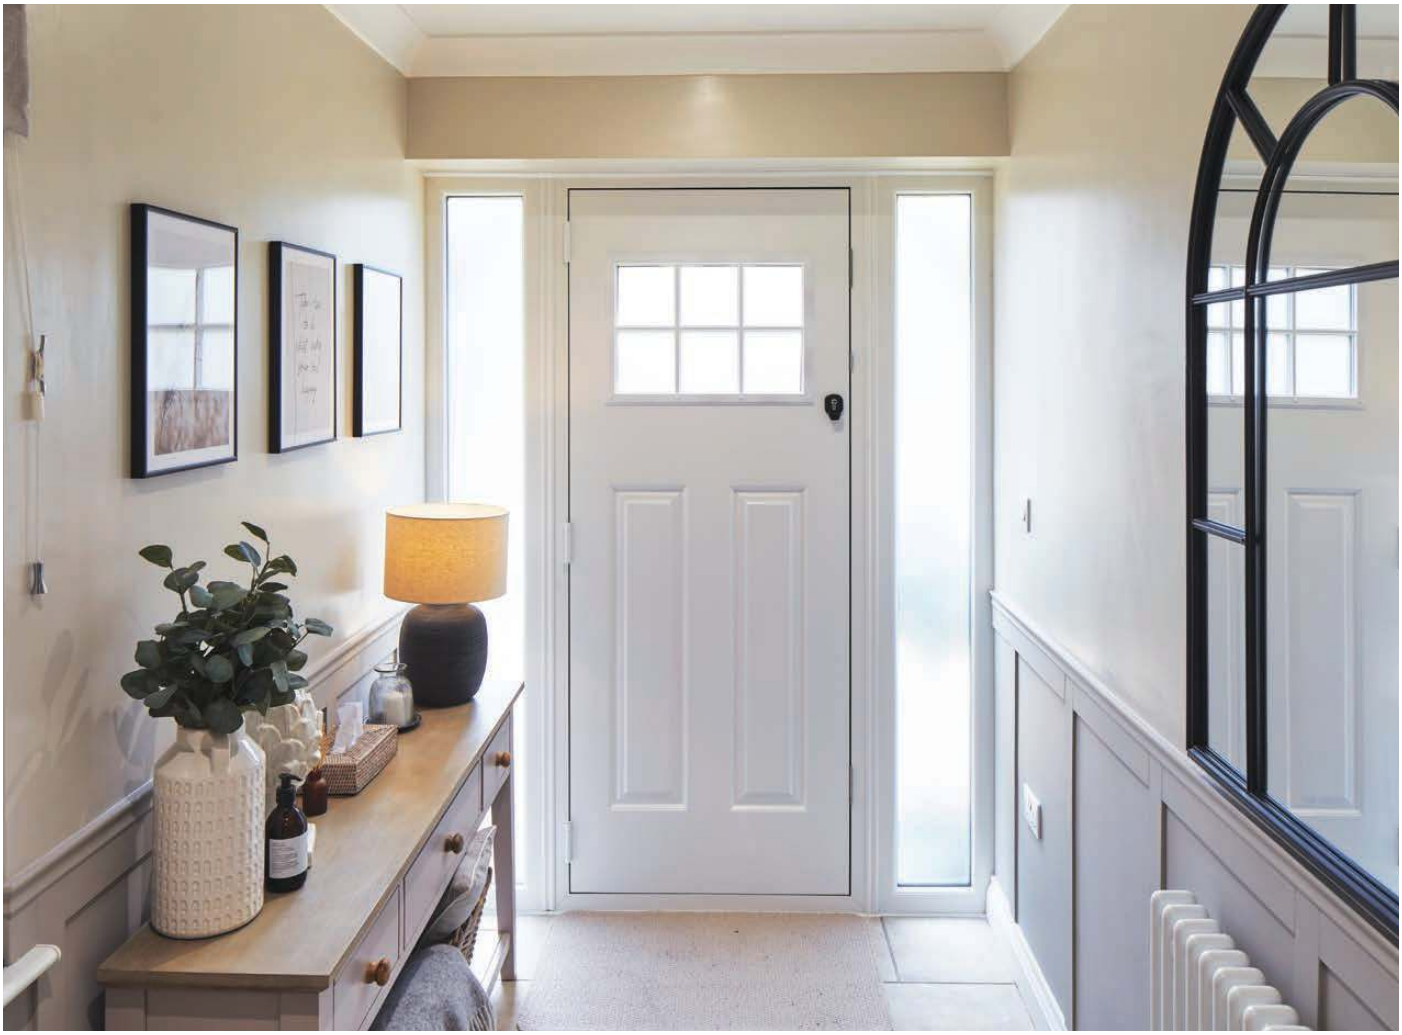

Peace And Quiet
Totally solid and up to 10% thicker than other entrance doors, an Endurance door can reduce noise from the outside making its way into your home.

Heat reflective skins.

Endurance doors feature cutting-edge CoolSkin® technology, meticulously designed to deliver a lifelike woodgrain texture while safeguarding against common issues associated with composite doors such as delamination, cracking, or bowing.

By reflecting up to 95% of the sun's rays, CoolSkin® technology effectively prevents your Endurance door from overheating. This innovative feature addresses the primary cause of post-installation problems with entrance doors.

Why choose an Endurance door?

A **Locking Cylinder**

Every Endurance door comes with the High Security, Sold Secure Diamond Grade locking cylinder.

B **High Security Multi-Point Locking System**

Our locking systems are tested to Secured By Design specified PAS 24 Security Standards.

C **Solid Timber Core**

48mm thick cross laminated solid timber core makes the Endurance door the most solid and secure on the market.

D **Moisture Barrier System**

Our unique Moisture Barrier System is concealed within the foot of the door - completely protecting the solid timber core of an Endurance door from moisture ingress.

E **Hardware Accessories**

Our hardware accessories have been rigorously tested to ensure their durability - so you can count on them to look great for years to come.

F **Robust Heat Reflective Door Skin**

CoolSkin® technology used to produce our door skins offers a realistic woodgrain texture whilst protecting against delamination, cracking, bowing or warping.

G **Perfectly Colour Matched Frames**

Our door frames are strong, secure and perfectly colour matched to the rest of your Endurance door.

H **Thermally Toughened Glazing**

Our decorative glazing is both thermally toughened and argon-filled, ensuring optimal security and thermal efficiency as standard.

AV2 Heritage
Automatic Lock

QuadHook+

Our locking options.

Our range of locking mechanisms offer an exceptional degree of security, meaning you can relax knowing your home is protected by some of the most tried and tested technology available.

Guardian5

Engage the Guardian5 by effortlessly raising the door handle, activating two twin bolts strategically positioned in both the upper and lower sections. Complemented by a key operated deadbolt, this innovative design sets a new standard for security, making the Guardian5 one of the most formidable locking options on the market.

QuadHook+

Introducing the QuadHook+, featuring a cutting-edge 5-point locking mechanism. This system boasts four opposing tensile steel hooks and a key operated deadbolt, seamlessly running the full height of the door. Activate this robust security arrangement with ease by simply lifting the handle, ensuring unparalleled protection for any home.

AV2 Heritage Automatic Lock

Discover enhanced security with the AV2 Heritage locking system. With the locking cylinder positioned in a traditional loftier location, this mechanism automatically engages upon firmly closing the door, with firing pins securing two sturdy tensile steel hooks. Activating the deadbolt is effortless – just turn the key. Internally, exiting is made simple with a user-friendly thumb turn cylinder or key, striking a perfect balance between ease of use and robust security. Designed for doors featuring fixed external handles or finger pull escutcheons, the AV2 Heritage guarantees exclusive entry from the outside using a key once closed.

AV4 / AV4 Heritage Automatic Lock

Embedded within its frame, the AV4 features a magnetic trigger that smoothly activates two sturdy tensile steel hooks the moment the door is firmly closed. For added flexibility, a daytime release function can be used to allow temporary suspension of the automatic locking feature. Perfectly suited for doors equipped with fixed external handles or finger pull escutcheons, the AV4 ensures seamless entry from the outside using a key once closed.

Scan here to learn more about our locking options.

Guardian5

Locking cylinder positions.

Standard Position

The standard locking position of the Guardian5, Quadhook+ and AV4 locking mechanisms are mid-way down the door.

Heritage Position

The AV2 and AV4 automatic locking mechanisms are available in a Heritage variation. This locking position is ideal for bringing a traditional feel to your entrance and can be combined with any of our fixed handle options.

High security locking cylinder.

At Endurance, we believe everyone has the right to feel safe and secure in their own home. That's why every Endurance door comes complete with the innovative Ultimate high-security locking cylinder, one of the most secure locking cylinders in the UK.

The ingenious locking system of the Ultimate locking cylinder knows when it's being attacked. If an attempted breach is detected, an inner mechanism automatically engages to lock down the cylinder and prevent burglars from accessing its internal components.

Lock snapping has become the preferred entry method for UK criminals and the Ultimate locking cylinder has another trick up its sleeve to keep burglars at bay. A sacrificial cut is used so that when the burglar grabs the end of the cylinder, just the tip snaps off, leaving more metal in front of the central locking mechanism as protection.

Having been tested to Sold Secure 'Diamond Grade' standards, the Ultimate locking cylinder has achieved a level of security that far surpasses other locking cylinders on the market.

Every Endurance door is supplied with 5 High-Security Dimple Keys as standard. These keys can only be reproduced by quoting your unique key reference number, so nobody can copy your keys without your consent.

To learn more about our high security locking cylinder, scan the above QR code.

£2000 security guarantee.

We are so confident in the unprecedented level of security offered by the Ultimate High Security Locking Cylinder used in our doors, that in the unfortunate event your home is broken into by means of snapping the cylinder, we will offer £2000 in compensation.

Find out more about our Security Guarantee.

Terms & Conditions apply. See website for full details enduranceddoors.co.uk/security-guarantee

You're in safe hands.

We select only the most dedicated and skilled installers to join our Installer Partner Network, ensuring that your Endurance door is installed to the highest standard possible. Our Installer Partners not only have access to the most stylish and secure doors in the UK but also benefit from our extensive knowledge and expertise. We prioritise continuous improvement, providing GQA certified training to our installers at our specialised training facility.

Each year, our Installer Partners oversee the installation of tens of thousands of Endurance doors, contributing significantly to our outstanding reputation as the only UK manufacturer rated as excellent on Trustpilot. This accolade is a testament to their expertise and commitment. When choosing one of our Installer Partners, you can trust that you'll receive expert advice in selecting the right door for your home and experience the highest quality installation.

To ensure that our Installer Partners reach our high standards, they must meet the following criteria:

- Have a track record of installing Endurance doors to our agreed fitting standard
- Have a clearly defined customer care policy that places the needs of the homeowner first
- Have clearly defined policies for monitoring service levels and handling complaints
- Have an excellent knowledge our products and take part in specialist training

Find your local installer.

Beautiful job!

Fitters turned up on time and worked continuously. They left no mess whatsoever. The new front door looks great. Highly recommend.

Claire

A very pleasant experience

Our installers were very patient and attentive in helping while choosing our door. Their attention to detail was second to none.

Linda

The only UK manufacturer rated as 5 stars.

Here at Endurance, we encourage our customers to do their own research. After all, you and your family will use the entrance door to your home many times, every day, so it's important you choose the best option available.

Trustpilot is the most highly regarded online review platform in the UK and we have secured over 2,500 independent consumer reviews, of which more than 88% awarded us five stars; this is by no means an accident.

When purchasing an Endurance door through a member of our Installer Partner Network, you're guaranteed to receive the very best experience, from initial contact through to completed installation and beyond.

Put simply, when the quality of the Endurance door product is combined with the skill and experience of our Installer Partner Network, the five star reviews look after themselves.

We're the highest-rated door manufacturer in the country, and we plan to keep it that way.

By scanning this QR code, you'll be taken to Trustpilot where you'll be able to read our reviews.

"Really pleased with our new Endurance door. Loads of choice, from door styles, to colours and hardware options. Quality and finish on the door is outstanding. Can't recommend enough."

by Tom

"I am delighted with the door. The quality and workmanship is first class. I am impressed with the attention to detail. One of the main points being the security aspect. As well as that the door is really beautiful."

by Carole

"We are so happy with our new door it exceeds our all our expectations. The build quality cannot be faulted and we are over the moon the the design choices we made."

by Darryl

Our recent projects.

Louise's Project
Bristol, South West

"Working with Endurance Doors has been really great from the start. They helped us through the whole process.

When the fitters came they were very accommodating and made me feel really comfortable."

Sarah's Project
Wigan, North West

"I'd absolutely recommend Endurance Doors.

We've had lots of visitors who've asked me where our beautiful new door came from and I love talking to them about the whole experience."

Steve & Kay's Project
Shropshire, West Midlands

"I'd definitely recommend Endurance Doors to my family and friends.

The whole process has been really efficient from start to finish and we're thrilled with how finished project looks."

Get Inspired

Scan here to see our entire collection of fabulous Case Studies.

Andy's Project

Guildford, South East

"I chose Endurance Doors mainly because of the quality, but also the vast range of colours, shapes, sizes, glass, everything you can get with it.

The installers were great, it was done within a day."

Rebecca's Project

Mansfield, East Midlands

"I love the style, it looks beautiful, it definitely improved the whole look of the house, it just looks all new and fresh again!

We've had loads of compliments from neighbours, family and friends."

Lisa's Project

Crewe, North West

"We came across Endurance Doors online and they were a brilliant fit, there was lots of choice and modern designs that we liked.

It was really great because we could choose on the inside and the outside, different colours."

The colour collection.

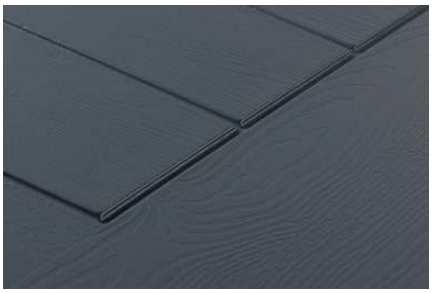

Endurance doors are available in your choice of 19 colours, with the option to choose an alternative colour for the exterior and interior of your door. Most of our customers choose a white internal finish, but with so many different colours available the decision is yours. We're also able to offer perfectly matching door frames for most of our door colours too.

Order Your Colour Samples

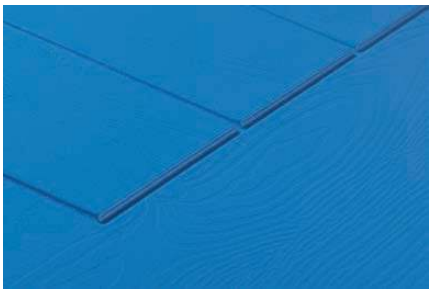

Scan the QR code above with your smartphone device, this will take you straight to the 'Request A Sample' page on our website.

*Not available as a matching coloured frame. For doors of this colour we recommend a white or cream frame.

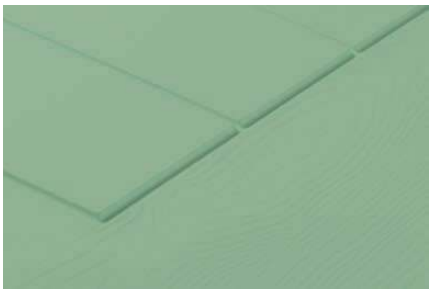

Note: All colours are visual representations only. We recommend you request a sample to see the true colour.

Stable doors.

Open up the inside of your home with our range of stable door designs. Suitable as both a front and back door, our extensive range of styles and colours are the ideal way to add a personal touch to your home.

Endurance stable doors come with two completely separate locks, with a high strength centre gear box, a handle operated top lock and a key / thumb turn operated bottom lock. These locks come keyed alike, meaning both locks can be opened with a single key.

- The key operated bottom lock escutcheon is available in a variety of finishes
- The internal centre locking bolt is available in gold and chrome finishes

Stable doors offer advantages and uses in various settings. Some of these include:

Ventilation and Light
By opening the top half of the door while keeping the bottom half closed, fresh air and natural light can enter the space, providing ventilation and illumination.

Charm and Aesthetics
Stable doors have a distinctive and charming appearance, adding character to homes. They are often associated with rural or farmhouse-style architecture.

TOUCHKEY

Highly secure versatile keyless entry.

ERA TouchKey is a highly secure versatile keyless entry and exit solution, that uses multi-level authentication. It combines traditional mechanical door hardware with world-renowned smarter technology, offering a new way to access a home without needing a key.

A complete security solution that includes the auto fire multi-point lock, smarter handle and anti-bump cylinder. With built-in security features across the whole system to reduce the risk of forced entry, the mechanical hardware and latest smarter technology work seamlessly together.

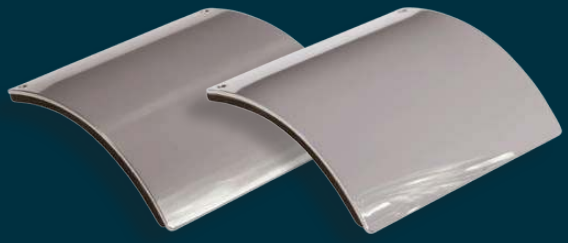

TouchKey can be used as a stand alone door security solution or as part of the wider ERA smart ecosystem. That includes smart alarms, video doorbell and cameras, providing consumers with an integrated smart home solution from one mobile app.

Other innovative features of the ERA app include, full control to set permissions, the ability to check activity and Digital eKeys for friends and family. The removable communication module can be updated later if required (by the homeowner), which when connected with an ERA Smart hub, will allow the door handle to be remotely unlocked using their smartphone from anywhere in the world.

Behind your door.

At Endurance we know that sustainability is a key consideration for many of our customers and it is just as important to us as we know it is to you. After over 30 years in production, we are constantly adapting our material sourcing and processing to ensure the greenest decisions are made for our planet.

A Carbon Balanced Business

We are a member of Carbon Neutral Britain, an agreement that allows us to assess our climate impact and develop strategies to offset our unavoidable emissions. This can be achieved through the protection and restoration of carbon-rich habitats, something we currently address with the sourcing of our timber core.

Environmentally Concious

For our famed solid timber core, we only use 100% traceable wood from sustainably managed Finnish Forests. In fact, for each tree felled four more seedlings are planted in its place. These forests are currently growing 40% faster than they are being used and the production process of our solid timber core from the forest floor to the mill is carbon negative.

A Low Carbon Door

Not only does Endurance use very little carbon creating processes or materials its production, but the solid timber core in each Endurance door also acts as a carbon sink, capturing and storing approximately 1 tonne of CO^2 in every $1m^3$ of our product.

Environmentally Friendly

Throughout our manufacturing processes we have implemented an extensive recycling programme which means that 0% of our waste goes to landfill. We recycle and reuse all components in our manufacturing process, ensuring a sustainable and ethical approach to our waste management.

Additionally, we deliver our composite doors in the most fuel-efficient way possible as we are conscious of the emissions produced during transportation. We closely monitor our transport schedules to ensure maximum efficiency.
