single & double doors

Single and double slim aluminum frame doors offer a modern and minimalist aesthetic that can enhance the appearance of any space

Overall, these doors are a popular choice for contemporary design schemes seeking to incorporate clean lines, minimalistic features, and an abundance of natural light.

sliding doors

Sliding doors slide horizontally along a track, which means they don't swing open like traditional hinged doors. This space-saving design is ideal for rooms with limited space or areas where you want to maximize the usable floor area.

Overall, sliding doors with slim aluminum frames offer a stylish, practical, and versatile solution for modern living spaces, providing both aesthetic appeal and functional benefits.

pivot doors

Pivot doors with slim aluminum frames provide a sleek and minimalist aesthetic that complements contemporary architecture and design. The slim frames maximize the glass area, creating a striking visual impact and allowing for unobstructed views.

Overall, pivot doors make a bold statement while providing seamless integration with the surrounding architecture and environment.

glass partitions

Glass partitions with slim aluminum frames are a popular choice for dividing interior spaces in modern offices, commercial buildings, and residential settings.

Overall, glass partitions with slim aluminum frames offer a perfect balance of aesthetics, functionality, and flexibility, making them an ideal choice for modern interior spaces.

handles

Oxford

Oxford handle offers a combination of style, durability and functionality, making them a practical and attractive choice for both residential and commercial properties.

London

London handle offers a modern and simple design with several advantages that make them a popular choice for various applications.

Belfast

Belfast pull handles are designed with simplicity and functionality in mind, offering several advantages for both residential and commercial settings.

Manchester

The Manchester pull handle stick-on design is a convenient and functional solution for modern spaces, especially where a minimalist aesthetic is desired.

Liverpool

The Liverpool pull handle stick-on design offers a practical, modern, and space-saving solution for adding functionality to doors in all contemporary spaces.

extras

20mm bars

Incorporating 20mm glazing bars into doors and partitions offers a unique opportunity for creative design in modern spaces.

33mm bars

Structural glazing bars with a width of 33mm offer a unique opportunity for creative and innovative design in doors and partitions while maintaining a slim profile.

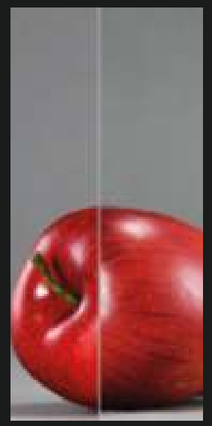

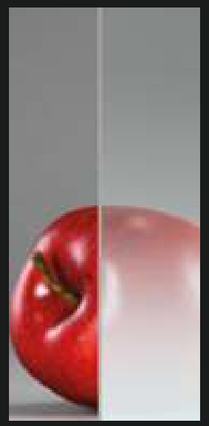

hinges

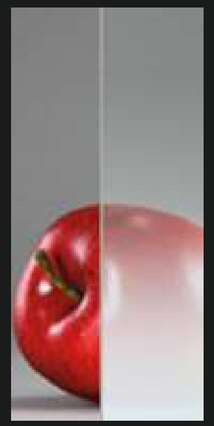

Creating small, unique, and aesthetically pleasing hinges for aluminum doors while maintaining functionality requires attention to detail and innovative design.

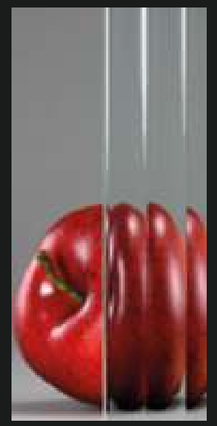

glass

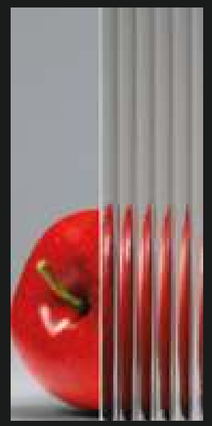

Multiple glazing options for doors offer versatility and functionality, allowing you to customize your doors according to your specific needs and preferences.
