Autodor Sectional Door & Operator

1st March 2025 The complete sectional garage door and operator package

Introducing Autodor

The Autodor is a sectional garage door supplied complete with a GaraMatic 9, which retains all the usual features you have come to expect from a Garador sectional garage door, but at a lower price point.

The Autodor comes in two door designs:

- Linear Medium (Woodgrain or Planar surface).
- Linear Large (Planar surface).

There are 7 colour options available, and you can choose from 23 standard garage door sizes, accommodating openings up to 5500mm wide. The Autodor features tension lifting gear for widths up to 4000mm and torsion lifting gear for larger sizes. For full specifications, please refer to the Autodor price list.

Fully insulated door sections

The Autodor is manufactured with 42mm thick garage door sections, filled with insulating PU foam. With u-values down to 1.30 W/m^{2}K, it provides great thermal insulation contributing to potential savings on your energy bills.

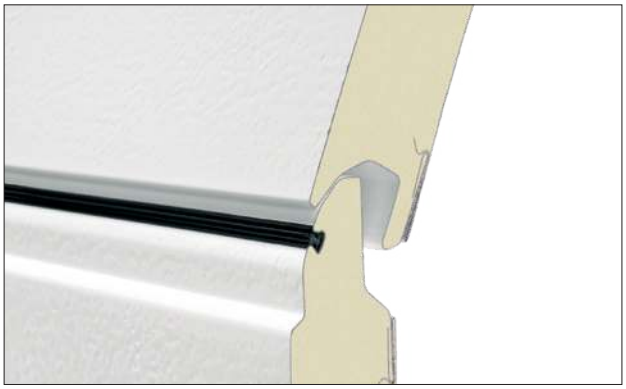

Electrically operated design

The Autodor is conveniently opened at the touch of a button. Supplied complete with a GaraMatic 9 operator and two 2-button micro hand transmitters. GaraMatic 10 operator available as an optional upgrade.

A good seal all round

Weather resistant seals on all four sides of the door, along with intermediate seals between every section joint, helps to create a tight seal and prevent drafts.

Plastic frame footer

The frame leg is fitted with a plastic bed plate. This provides long-term protection against corrosion that might be caused by humidity, acids or salts.

Autodor and GaraMatic 9 Operator

The Autodor provides excellent value, without compromising on functionality. The GaraMatic 9 operator is simple to operate and is designed with a soft start and stop feature, to prolong the service life of the motor. It has a maximum opening speed of 20cm / second and automatic safety reversal in the event of an obstruction.

Optional bluetooth receiver
Operating the Autodor via a smartphone is possible, using the Garador BlueSecur app. An optional bluetooth receiver (HET-BLE) is required.

Bisecur hand transmitters

The Autodor comes with two 4-button hand transmitters, with a small form factor that fits comfortably in your pocket. Transmits on 868 MHz frequency with bisecur radio technology.

Integral LED light

The GaraMatic 9 features an integral LED light with 10 LEDs for energy efficiency. Furthermore, it has a low power consumption of less than 1 watt in stand-by mode.

Secure mechanical locking system

The operator boom is equipped with a secure mechanical lock to prevent forced entry. Even in the event of a power cut, the door cannot be forced open.

Safety assured

The Autodor sectional garage door and operator has been engineered with your safety in mind and will therefore comply with British Standard BS EN13241, ensuring powered doors are safe to use.

Linear Medium Designs

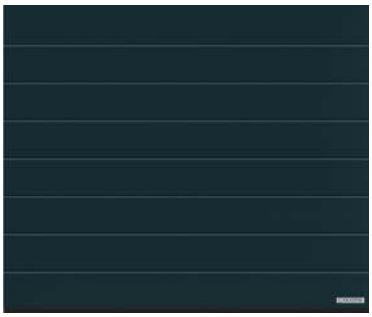

Linear Medium designs provide an excellent first impression on modern and traditional homes. They are available in 7 colours: RAL options for the Woodgrain finish and CH options for the Planar finish. The full range of colours are included in the price of the garage door.

Traffic White

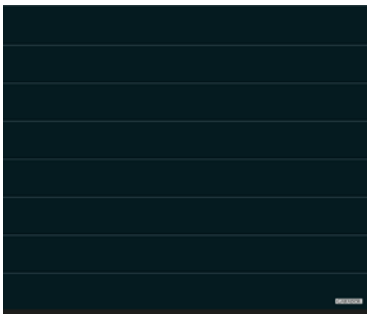

White Aluminium

Grey Aluminium

Titan Metallic

Anthracite Grey

Terra Brown

Jet Black

1. Woodgrain

2. Planar

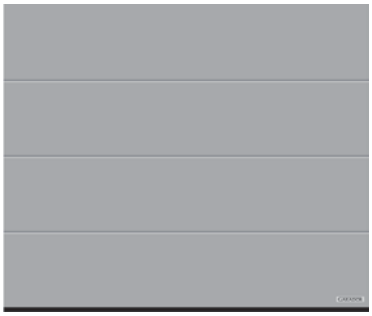

Surface finish for Linear Medium Autodor

1. Woodgrain offers a robust surface with an authentic sawn timber look. Minor scratches can be repaired by working with the texture.
2. Planar is an exquisitely smooth surface finish, available in a choice of seven exclusive matt deluxe colours.

Linear Large Designs

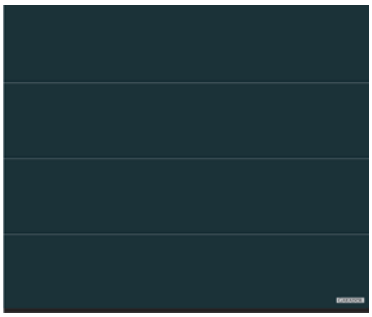

Linear Large designs are perfectly suited to contemporary properties with modern architectural features. They are available in a matt deluxe paint finish for the Planar surface texture. The full range of colours are included in the price of the garage door.

Traffic White (Matt Deluxe: CH 9016)

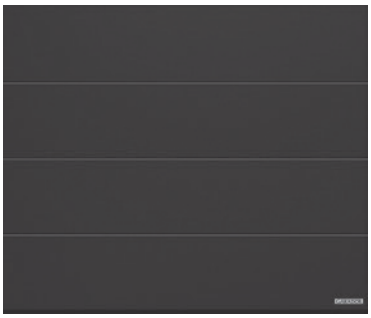

White Aluminium (Matt Deluxe: CH 9006)

Grey Aluminium (Matt Deluxe: CH 9007)

Titan Metallic (Matt Deluxe: CH 703)

Anthracite Grey (Matt Deluxe: CH 7016)

Jet Black (Matt Deluxe: CH 9005)

1. Planar

Surface finishes for Linear Large Autodor

1. Planar is an exquisitely smooth surface finish, available in a choice of seven exclusive matt deluxe colours.

GARADOR

Matching Autodor Garage Side Door

Fully insulated garage side doors are also available, with designs to perfectly match the colour and surface texture of your Autodor sectional garage door. Available in a range of standard sizes. Linear Medium designs are in Woodgrain or Planar surface finishes, and Linear Large designs are in Planar surface finishes.

Fully-insulated

Each garage side door is fully-insulated. The door leaf is filled with insulating polyurethane foam to retain heat inside your garage.

Sealed all round

Durable rubber seals are used on all side of the door to prevent drafts and water coming in when it rains. Includes a sturdy rubber seal at bottom of door and aluminium threshold.

Lever handle

Supplied with a classic black plastic lever/ lever handle as standard for an attractive modern appearance and ease of use.

Linear Medium Designs

Our Autodor garage side doors are the perfect complement to the Linear Medium garage doors. Choose from a selection of RAL colour finishes, with a Woograin or Planar surface texture.
