The new door by Apeer, including the key elements of design and performance is presented as 120mm front-to-back format, including traditional, contemporary and stable door designs, with 78mm quadruple sealed glass units as standard. Every effort has been made to reproduce the colour of our Apeer doors and the coloured film in the decorative glass designs. However, printing constraints will give rise to some colour deviation. All Residence Collection Doors by Apeer are 120mm and quadruple glazed as standard. Please note the grain on the GRP Apeer door does not replicate the grain on the frames as it is a PVC foil. Glass designs shown in sidelights may vary depending on sidelight width. Coloured film in glass designs is not an exact match to the door colour. The glass has been designed by our in-house glass designers specifically for this collection and any imprints on the film are a natural part of the handcrafted process.
